thank you

My question is really a follow up to something Fernanda mentioned. There were many who were against any change at all and then either went no further or only answered a few questions. I do think they need to be recognized as if you want no change you clearly do not want to see a large hotel. How do we make sure their views are included?

The maps you all created are fabulous. It was unclear to me how they play into the surveys and the final document.

Is any comparative analysis being done - ie Troutbeck, Beekman Arms, even the current Cottonwood operation.

Thank you all so much.

Nancy
