Dear Members of the CPRC,

Thank you for all of the important work you are doing. I was very impressed by the maps that your consultants are developing for water resources, species etc.

I wanted to know how you'll be incorporating these maps into your recommendations to the Town Board? Specifically, are there areas where hospitality should be limited based on the location of water or other natural resources?

Also, your economic study - how will that be incorporated into your recommendations?

Thank you very much again for all of your great work and for taking the time to address my questions.

Kind regards,
Leslie Heaney
