

Town of Washington Planning Board

October 18, 2022

To whom it may concern;

At the request of Secretary DiFiore, I have reviewed a site plan for two proposed new structures located on the premises of Quila Farm at 593 Verbank Road. As shown in the provided site plan, the driveway and entrance for the proposed cottage and garage are adequate for the entrance and egress of fire apparatus, and I take no exception to the site plan as shown.

Should you have any additional questions, please feel free to contact me.

Firematically,

Ted Bownas
Chief of Department
Millbrook Fire Department
