617.20 Appendix B Short Environmental Assessment Form

Instructions for Completing

Part 1 - Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part I based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part I. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 - Project and Sponsor Information	1			
Name of Action or Project: Screened-In Porch Replacement and Enlargement				
Project Location (describe, and attach a location map):		****		
199 Milewood Rd, Millbrook, NY 12545				
Brief Description of Proposed Action:				
Replace Existing Screened-In Porch and Enlarge.				
			•	
Name of Applicant or Sponsor:	Telep	hone: (772)216-9	1939	
Richard Scott Hurley	E-Ma	il: scotthurley@n		
Address:	<u>!</u> ,	300ttriariey@ri		
1701 Highway A1A, Ste 204				
City/PO: Vero Beach		State:	Zîp Code:	
		FL	32963	
1. Does the proposed action only involve the legislative adoption of a plan, leadministrative rule, or regulation?		·-	NO	YES
If Yes, attach a parative description of the intent of the proposed agricu and the arrived description of the intent of the proposed agricum and the arrived description of the intent of the proposed agricum and the arrived description of the intent of the proposed agricum and the arrived description of the intent of the proposed agricum and the arrived description of the intent of the proposed agricum and the arrived description of the intent of the proposed agricum and the arrived description arrived description and the arrived description and the arrived description and the arrived description arrived description arrived description and the arrived description arrived descrip

5. Is the proposed action,			γ
a. A permitted use under the zoning regulations?	<u> </u>	ES	N/A
b. Consistent with the adopted comprehensive plan?	# -	4	片부
6. Is the proposed action consistent with the predominant character of the existing built or natural	117		
landscape?	N	0	YES
7 To the site of			
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area? If Yes, identify:	N	<u> </u>	YES
in its, identity:			1 220
8. a. Will the proposed action result in a substantial increase in traffic above present levels?	72.74		*****
Proceeding to proceed	NO	<i>)</i>	YES
b. Are public transportation service(s) available at or near the site of the proposed action?			
		7	
c. Are any pedestrian accommodations or bicycle routes available on or near site of the proposed action?			+
9. Does the proposed action meet or exceed the state energy code requirements?			
If the proposed action will exceed requirements, describe design features and technologies:	NO		YES
N/A 1 Total Control design realines and reciniologies:	1-	-,	
		_	
10. Will the proposed action connect to an existing public/private water supply?			
	NO		YES
If No, describe method for providing potable water:	r=	_ [71
]	\square
11. Will the proposed action connect to existing wastewater utilities?			
——— proposed and connect to existing wastewater unities?	NO	þ	YES
If No, describe method for providing wastewater treatment. N/A - Screened-In Porch		_,	·
12. a. Does the site contain a structure that is listed on either the State or National Register of Historic			
Places?	NO		YES
b. Is the proposed action located in an archeological sensitive area?		7	
tanda reserve in an incheological sensitive areas.		計	
13. a. Does any portion of the site of the proposed action, or lands adjoining the proposed action, contain	$+\mathbf{X}$		
wetlands or other waterbodies regulated by a federal, state or local agency?	NO	7	YES
b. Would the proposed action physically alter, or encroach into, any existing wetland or waterbody? If Yes, identify the wetland or waterbody and extent of alterations in square feet or acres:	17	7 1	
de victor of and extent of anti-ations in square feet or acres:	LV	4	<u> </u>
14 TI	1 .		
14. Identify the typical habitat types that occur on, or are likely to be found on the project site. Check all that	apply	:	
Liferity mid-successional			}
- Usungan			Ì
15. Does the site of the proposed action contain any species of animal, or associated habitats, listed	NO	T	YES
by the State or Federal government as threatened or endangered?	1	1	
16. Is the project site located in the 100 year flood plain?	<u> </u>		
production of the food plants	NO		YES
17 Will the proposed action greats do			
17. Will the proposed action create storm water discharge, either from point or non-point sources? If Yes,	NO		YES
a Will storm mater discharge flourts of	1	T	
American Company of the Company of t		1	L_
b. Will storm water discharges be directed to established conveyance systems (nunoff and storm drains)?	-	- -	
If Yes, briefly describe: NO YES			
		}	

10				
į	Does the proposed action include construction or other activities that result in the impoundment of water or other liquids (e.g. retention pond, waste lagoon, dam)?	of	NO	YES
If	Yes, explain purpose and size:			
_			\square	
19	. Has the site of the proposed action or an adjoining property been the location of an active or clos		<u></u>	7770
	solid waste management facility?	ea	NO	YES
	Yes, describe:

5,	Will the proposed action result in a change in the use or intensity of use of land? Will the proposed action impair the character or quality of the existing community? Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)? Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway? Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities? Will the proposed action impact existing:			ay
5, 6.	Will the proposed action result in a change in the use or intensity of use of land? Will the proposed action impair the character or quality of the existing community? Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)? Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway? Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?			ay
5, 6. 7,	Will the proposed action result in a change in the use or intensity of use of land? Will the proposed action impair the character or quality of the existing community? Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)? Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway? Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities? Will the proposed action impact existing: a. public / private water supplies? b. public / private wastewater treatment utilities?			ay
5.6.7.8.	Will the proposed action result in a change in the use or intensity of use of land? Will the proposed action impair the character or quality of the existing community? Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)? Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway? Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities? Will the proposed action impact existing: a. public / private water supplies? b. public / private wastewater treatment utilities?			ay

	No, or small impact may	Moderate to large impact may
	occar	occur
10. Will the proposed action result in an increase in the potential for crossion, flooding or drainage problems?	abla	
11. Will the proposed action create a hazard to environmental resources or human health?		

Part 3 - Determination of significance. The Lead Agency is responsible for the completion of Part 3. For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

environmental impact statement is required	Triation and analysis above and any more than
