To: Town of Washington Board (New York)

Re: Support for Custom Training to own and reside at 3707 Rt 44

Dear Members of the Board,

I have been asked to add a voice of affirmation regarding Ray Gonsalves and Tammy Geiger, and their desire to permanently move their Mabbettsville business across the road from their present location to 3707 Rt 44. I do so with enthusiasm.

I understand they started their business some time ago, March 1, 2010.

Other than my own toned and chiseled physique, this is what I have experienced at Custom Training...

The professionalism throughout the staff is remarkable. Their knowledge base is superior in terms of bespoke individual training programs, employing a vast array of equipment and apparatuses, and applying an intimacy with all things related to kinesiology (the study of physical motion) and general health.

Beyond that, the owners and staff have developed a culture that is positive, encouraging and gracious.

The business itself is spotless and in perfect order. Their business practices are straightforward, clear, and respectful.

In a word, they are perfect for our community and I add my voice of affirmation for them to be settled members and stakeholders among us. Please reach out to me for any additional information you might be needing. Thank you for your consideration and ongoing service.

Regards,

The Reverend Thomas W. Fiet, Pastor, Lyall Community Church
