Describe why the proposed activity cannot be located at another site, i.e., out of the wetland, watercourse, water body or controlled area(s):

Prior to filing an application, the Applicant should consult with the Zoning Administrator/Building Inspector to determine whether professional delineation is required for their initial application submission.

- If a professional delineation is required, the Applicant may hire a private wetland consultant or the Town of Washington’s wetland consultant.
- If a professional delineation is not required, the NYS DEC Environmental Mapper may provide a useful tool in identifying the location of the wetlands, watercourses, water bodies and controlled areas on the property and can be accessed here: <https://gisservices.dec.ny.gov/gis/erm/>.

**Information required in Section IV.A and Section IV.B may be combined in one survey.

- The requirement that a survey be prepared by a licensed professional, surveyor, or architect may be waived by the Zoning Administrator for proposed activity which is minor and limited in scope. An example of such minor activity would be the installation of a small shed in the buffer area. [Note, the Planning Board reserves the right, after initial review, to determine that such a survey is necessary.]

- C. Description of the vegetative cover of the area, including dominant species and their wetland classified status as set forth in the most recent edition of the National List of Plant Species that Occur in Wetlands, New York or the Northeast (Region 1), located at <https://digitalmedia.fws.gov/digital/collection/document/id/1348/>.
